

## TyVAC is available to help with preparations for typhoid conjugate vaccine (TCV) introduction. We can:

- ❑ **Collate** and review typhoid burden and risk data.
- ❑ **Provide** resources and logistical support for regional and national stakeholder forums on typhoid and TCV.
- ❑ **Develop** country-specific advocacy and communications materials to support decision-making.
- ❑ **Interpret** and analyze health economics evidence and provide costing projections.
- ❑ **Provide** support, input, and content for the Gavi application and budget.
- ❑ **Provide** technical assistance for TCV introduction planning.
